

	Output	Use beyond the consortium	Access / More information
	 Sequencing pipeline optimisation *	For integrating raw genomic data from heterogeneous sources. Research community	ENDVOC website: https://endvoc.eu/storage/2024/01/END-VOC-Sequencing-pipeline-optimisation.pdf
	 Bioinformatics pipeline *	An all-in-one workflow to generate consensus sequences. Research community	ENDVOC website and GITHUB platform: https://github.com/END-VOC/WP3_D3.2_SARS-CoV-2_NGS_bioinformatics_pipeline/
	 Software to predict COVID-19 mortality	For predicting COVID-19 mortality in hospitalised patients. Medical community, hospitals	Ongoing
	 Virtual biobank *	Cohort samples with metadata for further research. Research community (immunology, virology, epidemiology, etc)	ENDVOC website https://endvoc.eu/wp-content/uploads/2025/09/Virtual-Biobank-Directory-tables-for-website.pdf
	 Adaptable clinical protocol platform *	For rapid assessment of treatment effectiveness in a pandemic Global research and medical community, WHO global clinical platform	Open-access, online tool https://endvoc.vercan.dev ; contact: gargionigiuliano@gmail.com
	 Immunity to SARS-CoV-2: summary	Updated synthesis for the medical community. Vaccine recommendations for health, regulatory authorities.	ENDVOC website https://endvoc.eu/storage/2024/10/Immunity-to-SARS2-EN.pdf
	 Long Covid burden: Policy brief *	Key findings and recommendations for future research, preparedness on PAIS. Health authorities, medical community, patient associations	ENDVOC website https://endvoc.eu/storage/2025/05/PB-LongCovid_ENDVOC_6.pdf
	 Risk communication strategies: recommendations *	Review of existing guidelines to strengthen public trust and effectiveness of pandemic response. Health authorities and policy makers.	ENDVOC website https://endvoc.eu/storage/2025/05/ENDVOC-D8.3-.pdf
	 Cohort research to support future pandemics: recommendations *	Challenges and lessons learned during ENDVOC Research community, EU policymakers	ENDVOC website https://endvoc.eu/wp-content/uploads/2025/10/RECOMMENDATIONS_EN_V5.pdf
